Benefits

Width and structural form ①

With their width between 18 and 90 mm, the CP-D range switch mode power supplies are ideally suited for installation in distribution panels.

Wide range input ②

Optimized for world-wide applications: The CP-D power supplies can be supplied with 90-264 V AC or 120-375 V DC.

Adjustable output voltage ③

The CP-D range types > 10 W feature a continuously adjustable output voltage. Thus, they can be optimally adapted to the application, e.g. compensating the voltage drop caused by a long line length.
