## **SIEMENS**

Data sheet US2:14HP32FG81

Figure similar

Non-reversing motor starter Size 3 Three phase full voltage Amb compensate bimetal OLrelay Contactor amp rating 90 AMP Non-combination type Encl NEMA type 4X Fiberglass Water/dust tight non-corrosive Standard width enclosure

| General technical data                                       |                          |
|--|--------------------------|
| Weight [lb]  | 41 lb                    |
| Height x Width x Depth [in]                                  | 24 × 24 × 7 in           |
| Protection against electrical shock                          | NA for enclosed products |
| Installation altitude [ft] at height above sea level maximum | 6560 ft                  |
| Ambient temperature [°F] during storage                      | -22 +149 °F              |
| Ambient temperature [°F] during operation                    | -4 +104 °F               |
| Ambient temperature during storage                           | -30 +65 °C               |
| Ambient temperature during operation                         | -20 +40 °C               |
| Country of origin  | USA                      |

## Vielded mechanical performance [hp] for three-phase AC motor • at 200/208 V rated value • at 220/230 V rated value • at 460/480 V rated value 50 hp

| ● at 575/600 V rated value                             | 50 hp                               |
|--|-------------------------------------|
| Contactor  |                                     |
| Number of NO contacts for main contacts                | 3                                   |
| Operating voltage for main current circuit at AC at 60 | 600 V                               |
| Hz maximum   |                                     |
| Operating current at AC at 600 V rated value           | 90 A                                |
| Mechanical service life (switching cycles) of the main | 5000000                             |
| contacts typical                                       |                                     |

| Number of NC contacts at contactor for auxiliary       | 0                                   |
| contacts   |                                     |
| Number of NO contacts at contactor for auxiliary       | 1                                   |
| contacts   |                                     |
| Number of total auxiliary contacts maximum             | 7                                   |
| Contact rating of auxiliary contacts of contactor      | 10A@600VAC (A600), 5A@600VDC (P600) |
| according to UL  |                                     |
| Coil   |                                     |
| Type of voltage of the control supply voltage          | AC                                  |
| Control supply voltage                                 |                                     |
| • at DC rated value                                    | 0 0 V                               |
| <ul> <li>at AC at 60 Hz rated value</li> </ul>         | 220 240 V                           |
| • at AC at 50 Hz rated value                           | 190 220 V                           |
| Holding power at AC minimum                            | 14 W                                |
| Apparent pick-up power of magnet coil at AC            | 310 V·A                             |
| Apparent holding power of magnet coil at AC            | 26 V·A                              |
| Operating range factor control supply voltage rated    | 0.85 1.1                            |
| value of magnet coil                                   |                                     |
| Percental drop-out voltage of magnet coil related to   | 50 %                                |
| the input voltage                                      |                                     |
| Switch-on delay time                                   | 26 41 ms                            |
| Off-delay time   | 14 19 ms                            |
| Overload relay   |                                     |
| Product function                                       |                                     |
| <ul> <li>Overload protection</li> </ul>                | Yes                                 |
| Test function  | Yes                                 |
| External reset   | Yes                                 |
| Reset function   | Manual and automatic                |
| Adjustment range of thermal overload trip unit         | 0.85 1.15                           |
| Number of NC contacts of auxiliary contacts of         | 3                                   |
| overload relay   |                                     |
| Number of NO contacts of auxiliary contacts of         | 0                                   |
| overload relay   |                                     |

| Operating current of auxiliary contacts of overload relay              |                                    |
|--|------------------------------------|
| • at AC at 600 V   | 5 A                                |
| ● at DC at 250 V   | 5 A                                |
| Contact rating of auxiliary contacts of overload relay according to UL | 5A@600VAC (B600), 5A@250VDC (P300) |

| Enclosure   |  |
|---|--|
| Degree of protection NEMA rating of the enclosure | NEMA 4X fiberglass enclosure                 |
| Design of the housing                             | Dust-tight, watertight & corrosion resistant |

| Design of the flousing  | Bust light, waterlight a corresion resistant |
|---|--|
| Mounting/wiring   |  |
| Mounting position   | Vertical                                     |
| (mounting type)   | Surface mounting and installation            |
| Type of electrical connection for supply voltage lineside   | Box lug                                      |
| Tightening torque [lbf·in] for supply   | 120 120 lbf·in                               |
| Temperature of the conductor for supply maximum permissible   | 75 °C  |
| Material of the conductor for supply  | AL or CU                                     |
| Type of electrical connection for load-side outgoing feeder   | Screw-type terminals                         |
| Tightening torque [lbf·in] for load-side outgoing feeder  | 35 50 lbf·in                                 |
| Type of electrical connection of magnet coil  | Screw-type terminals                         |
| Tightening torque [lbf·in] at magnet coil   | 5 12 lbf·in                                  |
| Type of connectable conductor cross-sections of magnet coil at AWG conductors single or multi-stranded                      | 2x (16 12 AWG)                               |
| Temperature of the conductor at magnet coil maximum permissible   | 75 °C  |
| Material of the conductor at magnet coil  | CU   |
| Type of electrical connection for auxiliary contacts  | Screw-type terminals                         |
| Tightening torque [lbf·in] at contactor for auxiliary contacts  | 10 15 lbf·in                                 |
| Type of connectable conductor cross-sections at contactor at AWG conductors for auxiliary contacts single or multi-stranded | 1x (12 AWG), 2x (16 14 AWG), 2x (18 16 AWG)  |
| Temperature of the conductor at contactor for auxiliary contacts maximum permissible  | 75 °C  |
| Material of the conductor at contactor for auxiliary contacts   | CU   |
| Type of electrical connection at overload relay for auxiliary contacts  | Screw-type terminals                         |
| Tightening torque [lbf·in] at overload relay for auxiliary contacts   | 5 12 lbf·in                                  |

| Type of connectable conductor cross-sections at overload relay at AWG conductors for auxiliary contacts single or multi-stranded | 2x (16 12 AWG) |
|--|----------------|
| Temperature of the conductor at overload relay for auxiliary contacts maximum permissible  | 75 °C          |
| Material of the conductor at overload relay for auxiliary contacts   | CU             |

| Short-circuit current rating                            |   |
|---|---|
| Design of the fuse link for short-circuit protection of | 10kA@600V (Class H or K); 100kA@600V (Class R or J) |
| the main circuit required                               |   |
| Design of the short-circuit trip                        | Thermal magnetic circuit breaker                    |
| Maximum short-circuit current breaking capacity (Icu)   |   |
| ● at 240 V  | 14 kA   |
| ● at 480 V  | 10 kA   |
| ● at 600 V  | 10 kA   |
