## **SIEMENS**

Data sheet US2:CLM1C02240

Mechanically held lighting contactor, Contactor amp rating 30Amp 0NC  $\_$  2NO poles, 220VAC 50HZ / 240VAC 60HZ coil Noncombination type, Enclosure NEMA type 1, Indoor general purpose use

|  | use                      |
|--|--------------------------|
| General technical data                                 |                          |
| Weight [lb]  | 8 lb                     |
| Height x Width x Depth [in]                            | 11 × 7 × 5 in            |
| Protection against electrical shock                    | NA for enclosed products |
| Installation altitude [ft] at height above sea level   | 6560 ft                  |
| maximum  |                          |
| Country of origin                                      | USA                      |
| Contactor  |                          |
| Number of NO contacts for main contacts                | 2                        |
| Number of NC contacts for main contacts                | 0                        |
| Operating voltage for main current circuit at AC at 60 | 600 V                    |

| Hz maximum  |          |
|---|----------|
| Mechanical service life (switching cycles) of the main contacts typical | 10000000 |
| Contact rating of the main contacts of lighting                         |          |

| contactor  |                  |
|--|------------------|
| <ul> <li>at tungsten (1 pole per 1 phase) rated value</li> </ul> | 30A @277V 1p 1ph |
| • at tungsten (2 poles per 1 phase) rated value                  | 30A @480V 2p 1ph |
| • at tungsten (3 poles per 3 phases) rated value                 | 30A @480V 3p 3ph |
| • at ballast (1 pole per 1 phase) rated value                    | 30A @347V 1p 1ph |
| • at ballast (2 poles per 1 phase) rated value                   | 30A @600V 2p 1ph |
| • at ballast (3 poles per 3 phases) rated value                  | 30A @600V 3p 3ph |

| at ballast (o poles per o pilases) ratea value  | The Greek of the |
|---|------------------|
| • at resistive load (1 pole per 1 phase) rated  | 30A @347V 1p 1ph |
| value   |                  |
| • at resistive load (2 poles per 1 phase) rated | 30A @600V 2p 1ph |

| value  |                  |
|--|------------------|
| • at resistive load (3 poles per 3 phases) rated | 30A @600V 3p 3pl |
| value  |                  |

| Auxiliary contact   |    |
|---|----|
| Number of NC contacts for auxiliary contacts                      | 0  |
| Number of NO contacts for auxiliary contacts                      | 0  |
| Number of total auxiliary contacts maximum                        | 4  |
| Contact rating of auxiliary contacts of contactor according to UL | NA |

| Coil   |                                   |
|--|-----------------------------------|
| Type of voltage of the control supply voltage          | AC                                |
| Control supply voltage                                 |                                   |
| • at DC rated value                                    | 0 0 V                             |
| • at AC at 60 Hz rated value                           | 240 240 V                         |
| • at AC at 50 Hz rated value                           | 220 220 V                         |
| Apparent pick-up power of magnet coil at AC            | 410 V·A                           |
| Apparent holding power of magnet coil at AC            | 40 V·A                            |
| Operating range factor control supply voltage rated    | 0.85 1.1                          |
| value of magnet coil                                   |                                   |
| Enclosure  |                                   |
| Degree of protection NEMA rating of the enclosure      | NEMA 1 enclosure                  |
| Design of the housing                                  | Indoor general purpose use        |
| Mounting/wiring  |                                   |
| (mounting position)                                    | Vertical                          |
| (mounting type)  | Surface mounting and installation |
| Type of electrical connection for supply voltage line- | Screw-type terminals              |

| Mounting/wiring   |                                   |
|---|-----------------------------------|
| (mounting position)   | Vertical                          |
| (mounting type)   | Surface mounting and installation |
| Type of electrical connection for supply voltage line-<br>side  | Screw-type terminals              |
| Tightening torque [lbf·in] for supply   | 18 20 lbf·in                      |
| Type of connectable conductor cross-sections at line-<br>side at AWG conductors single or multi-stranded              | 2x (14 8 AWG)                     |
| Temperature of the conductor for supply maximum permissible   | 75 °C                             |
| Material of the conductor for supply  | CU                                |
| Type of electrical connection for load-side outgoing feeder   | Screw-type terminals              |
| Tightening torque [lbf·in] for load-side outgoing feeder  | 18 20 lbf·in                      |
| Type of connectable conductor cross-sections at AWG conductors for load-side outgoing feeder single or multi-stranded | 2x (14 8 AWG)                     |
| Temperature of the conductor for load-side outgoing feeder maximum permissible  | 75 °C                             |
| Material of the conductor for load-side outgoing feeder   | CU                                |
| Type of electrical connection of magnet coil  | Screw-type terminals              |
| Tightening torque [lbf·in] at magnet coil   | 8 12 lbf·in                       |
| Type of connectable conductor cross-sections of magnet coil at AWG conductors single or multi-stranded                | 2x (16 12 AWG)                    |
| Temperature of the conductor at magnet coil maximum permissible   | 75 °C                             |
| Material of the conductor at magnet coil  | CU                                |

### Short-circuit current rating

| Design of the fuse link for short-circuit protection of the main circuit required | none                             |
|---|----------------------------------|
| Design of the short-circuit trip  | Thermal magnetic circuit breaker |
| Maximum short-circuit current breaking capacity (Icu)                             |                                  |
| ● at 240 V  | 5 kA                             |
| • at 480 V  | 5 kA                             |
| ● at 600 V  | 5 kA                             |

# Wiring Diagram Class CLM 30-200 Amp 2. 3. 4 and 5 Pole

#### Notes:

- 1. Dotted lines represent additional poles. Contactor may have 2. 3. 4 or 5 poles.
- 2. Optional auxiliary contacts are not shown.
