## Data sheet

## US2:CLM2C09480

Mechanically held lighting contactor, Contactor amp rating 30Amp 0NC \_ 9NO poles, 440VAC 50HZ/480VAC 60HZ coil, Non-combination type, Enclosure NEMA type 12, Dust/drip proof for indoors

Figure similar

| General technical data                                                  |                          |
|-------------------------------------------------------------------------|--------------------------|
| Weight [lb]                                                             | 20 lb                    |
| Height x Width x Depth [in]                                             | 16 × 13 × 6 in           |
| Protection against electrical shock                                     | NA for enclosed products |
| Installation altitude [ft] at height above sea level maximum            | 6560 ft                  |
| Country of origin                                                       | USA                      |
| Contactor                                                               |                          |
| Number of NO contacts for main contacts                                 | 9                        |
| Number of NC contacts for main contacts                                 | 0                        |
| Operating voltage for main current circuit at AC at 60<br>Hz maximum    | 600 V                    |
| Mechanical service life (switching cycles) of the main contacts typical | 1000000                  |
| Contact rating of the main contacts of lighting<br>contactor            |                          |
